Work Experience

Trident Contract Management, Madison WI
Web Development Intern
June 2016 – September 2016
- Worked on real applications within the Salesforce environment for multiple clients.
- Developed Visualforce Pages using CSS, HTML, Apex Triggers, Apex Classes, Standard/Custom controllers, and Visualforce components.
- Created Apex test classes and methods with minimum 80% code coverage.
- Used JQuery and JavaScript for front-end validation.
- Created Custom objects, Page layouts, Custom tabs, Formula Fields, Cross Object Formulas, Roll-up summary fields, Validation rules, Workflow rules, Approval processes, to suit the applications needs.

It is still a work in progress but if you have the time please take a look at my web portfolio at http://jasonwavery.com
